

**KREEPY  
KRAULY**

THE NEW  
**VTX-7**

**OPTIONAL  
AUTO SKIM  
UPGRADE**

*The exclusive Auto Skim valve and vacuum plate combination delivers premium full surface skimming that whisks away all floating leaves and debris.*

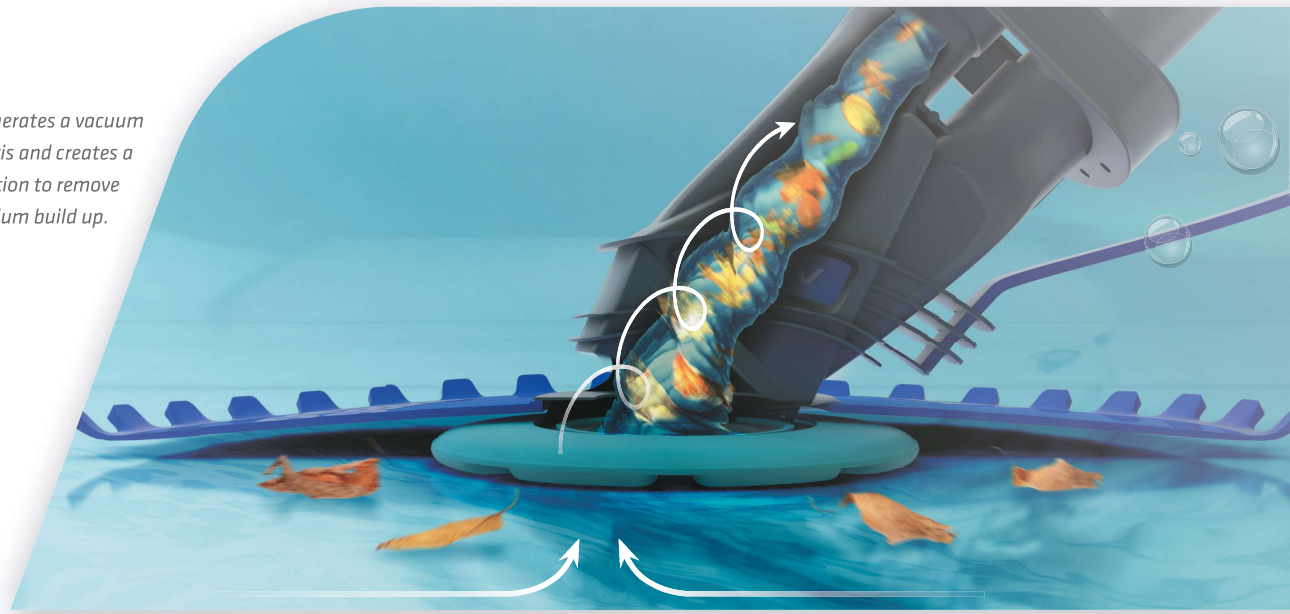

TRIPLE CLEAN WITH **VORTEX ACTION**  
TO KEEP YOUR POOL KREEPY KRAULY CLEAN.

The new VTX-7 is a true Automatic Pool Cleaning Solution – simply set and forget. VTX-7's Vortex Action and Scrubbing Silicon Seal delivers a triple cleaning action to thoroughly clean your pool top, bottom and sides. With its Ultra Flex Hose and Adjustable Steering System, VTX-7 delivers maximum coverage of your pool.

The powerful Vortex generates a vacuum that sucks up debris and creates a gentle scrubbing action to remove algae and calcium build up.

## The VTX-7 difference

### TRIPLE CLEAN WITH VORTEX ACTION

**Sucks** VTX-7 creates a powerful vortex vacuum that sucks up all debris in its path to achieve a complete clean.

**Scrubs** The Scrubbing Silicon Seal gently loosens calcium and algae build up so it can easily be vacuumed up and save you time.

**Skims** The Smart-Skim regulates the amount of suction needed and uses the excess vortex vacuum to pull floating debris into the skimmer box, for a top to bottom clean.

### POWER VORTEX WITH LARGE LEAF REMOVAL

The Oversized Leaf Scoop allows the VTX-7 to capture and remove large leaves that other cleaners can't.

### ENTIRE POOL COVERAGE

The Ultra Flex Hose and Adjustable Steering System create a Crisscross Cleaning Pattern to allow the VTX-7 to move freely and optimise coverage.

### UNBEATABLE WARRANTIES

VTX-7 is built to last. It's covered by a massive 10-year Warranty on the Flow Drive – its single moving part, and a 2-year Full System Warranty. Plus, you have the back up of local service and support.

PROUDLY SUPPORTING

The VTX-7 is suitable for all pool material types. Its Crisscross Cleaning Pattern is best suited to pools with curved walls.
